

Please fill out this application (4 pages) and submit the completed form to your local PG&E office.
This application can be filled out and submitted online at PGE.com
*Represents optional fields

Project Type

Reason for Relocation / Rearrangement Request (please check all that apply)

Remodel / Addition Repair Overhead to Underground conversion

Other _____

Project Information

Commodity for which PG&E Relocation / Rearrangement is requested Gas Service Electric Service (Overhead or Underground)

Project Address/Lot Number _____ City _____ Zip _____

Nearest Cross Street _____ Applicant / Company Name _____

Legal name to appear on contract _____

Name of person authorized to sign contracts _____ *Title _____

*Building Permit Number _____

PG&E Account No. Gas _____ Electric _____

Date PG&E facility rearrangement / relocation needed _____

PG&E may relocate or rearrange service in accordance with Gas and/or Electric Rules 2, 13,15, 16, 20, 21 and LS schedules as applicable. There may be circumstances where application of PG&E's distribution/service extension rules would place an undue financial burden on PG&E. In these cases, PG&E may apply the exceptional case provisions of its Rules 15 and 16.

Contact Information

Name of Contact _____

Day Phone (_____) _____ Fax (_____) _____ *Email address _____ -

Mailing Address _____ City _____ State _____ Zip _____

*Contractor's name _____ *Contractor's phone (_____) _____

Construction Information

Construction Options

You are permitted to select either PG&E or your own contractor to construct all or a portion of any new gas/electric distribution and / or service facilities. However, only PG&E may work on energized or pressurized facilities. More details regarding the installation option requirements are available through your local PG&E office. You should become familiar with the requirements before you make your selection (Please see the following pages under installation options for specific information)

If trenching is required, who will trench, backfill, and provide and install conduit and substructures? Applicant PG&E

Proposed trench occupants: (please check all that apply)

Electric Gas Phone CATV Other _____

Water, sanitary sewer, storm drain, LPG, oil or other fluid carrying piping or facilities are not permitted in a joint trench.

Electric Information

Main Switch Size (Service Termination Can) _____ amps Number of Meters at Service Location _____

Voltage: (select one)

120/240, 3 wire, 1Ø 120/208, 3 wire, 1Ø 240/120, 4 wire, 3Ø 208/120, 4 wire, 3Ø
 480/277, 4-wire, 3Ø Primary voltage (> 2,400 volts) Other (specify) _____

If required, who will install the electric service wire? Applicant PG&E

Natural Gas Information

Natural gas standard service delivery pressure is provided at 1/4 psig (7" water column). Requests for elevated service delivery pressure require PG&E's review and approval. If granted, elevated service delivery pressure may be reduced at any time due to PG&E operational needs. Special facilities and cost-of-ownership charges may apply for elevated service delivery pressure. For further information, contact your local PG&E office and refer to Gas Rule 2.

Number of Meters at Service Location _____

If required, who will install the new gas pipe? Applicant PG&E

* I request PG&E to provide a construction bid for: Gas Facilities and / or Electric Facilities

General Construction Information

Will temporary electric service be required?

No Yes Date needed _____

Will any existing PG&E gas or electric facilities require removal?

No Yes Not sure Date needed _____

Attachments

Please provide two (2) copies of the following:

- A. Detailed site plan showing roads, sidewalk, driveways, location of fire hydrants and other structures, proposed location of gas and electric meters, building elevations, and proposed future improvements. (Meter locations are subject to PG&E approval.)

General Information and Signature

Installation Option Information

Installed by PG&E as a competitive bid:

Under this option, PG&E will provide and install gas and / or electric facilities for the project in accordance with the provisions of the tariffs. Prior to starting construction, you must pay to PG&E any applicable advances. You are responsible for route clearing, land rights acquisition, trenching, conduit, substructures, and inspections.

Construction by applicant's qualified contractor:

Under this option, your qualified contractor must provide all necessary material and installation of the gas and / or electric facilities for the project. You must select a qualified contractor to perform the work to PG&E's design and construction specifications. Prior to starting construction, you must pay to PG&E any applicable advances including its estimated costs of engineering, administration, tie-ins, and any additional facilities and labor necessary to complete the extension. More details regarding the installation options requirements are available through your local PG&E office.

Self Generation

The E-NET program allows customers to install their own PV solar, wind or hybrid solar/wind generation that is interconnected to and operates in parallel with PG&E's electric grid. The purpose of this generation is primarily for a customer to offset part or all of his or her own electric needs. These customers can both continue to purchase power from PG&E's electric grid as well as deliver power to the grid. An E-NET customer's meter may run forward (to account for purchases from the grid) and backward (to account for deliveries to the grid).

For additional information on the E-NET program, including eligibility guidelines, program application form, links to the California Public Utilities Commission, Energy Commission and the US Department of Energy, visit <http://www.pge.com/selfgen> or contact PG&E's Interconnection Services at (415) 972-5676.

Tariff Information

Relocation/rearrangement shall be subject to all of PG&E's applicable tariff schedules on file with and authorized by the California Public Utilities Commission and shall at all times be subject to such changes or modifications as the Commission may direct from time to time in the exercise of its jurisdiction. These may include, but are not limited to changes or modifications to Monthly Cost-of-Ownership Charges (higher or lower percentage rates), extension rules, rate schedules, allowances and refund amounts.

Relocation/rearrangement will be designed and installed based upon the information provided on this application. Required information not supplied shall not constitute a waiver by PG&E of that information. NOTE: Installation of these facilities may require work by applicant on private property. Local authorities need to be contacted for any necessary permits and inspections.

Payment Information

In conjunction with submitting your application for rearrangement or relocation of gas, and or electric service, PG&E may require an engineering advance to cover some of its costs for project review, design work and cost development. This advance is based upon current costs and the amount of work anticipated based upon the information submitted in this application. This advance may be credited to the amount you owe or refunded to you without interest when PG&E has completed its engineering work. Before PG&E completes the engineering work, you may request PG&E to stop that work, and PG&E will deduct from the advance the costs which it has incurred, or refund the balance to you without interest.

I understand that this rearrangement/relocation will be engineered and installed based upon the information provided here. I agree to pay PG&E, on demand, for all work PG&E performs and all costs PG&E incurs for this application. If I postpone or cancel this application, I will pay PG&E for all such work and costs incurred until I notify it of the postponement or cancellation. PG&E's costs may include, for example, labor, material and supplies, (including long lead time materials), transportation, and other direct costs which PG&E allocates to such work. Incomplete information or any changes made at my request during the engineering, or after it is completed, will subject me to additional charges and may delay the relocation/rearrangement. I further agree to pay for any damage to new or existing PG&E facilities caused by my contractors or me.

IMPORTANT NOTE: Do NOT install your electric main switch or gas house line until the location is approved by PG&E.

As the applicant, I have read the above information and understand the provisions and my responsibilities.
